

Early Learning Institute is  
**Now Enrolling**  
For the Spring Semester of  
**Wee Play Preschool!**  
Tuesday & Thursday Afternoons  
1:00-4:00  
Begins April 13, 2010

Early Learning Institute is excited to announce the opening of a small, inclusive preschool play program designed especially for children who are not quite ready for larger preschool environments. Our progressive approach to the early education of children (3-5 years) will provide emergent curriculum based on developmentally appropriate, child-centered interests.

Wee Play Preschool features activities that are rich with opportunities for multi sensory play, communication, bilingual support and engaging social interactions. Respect for self, others and the environment are stressed with ongoing support around positive social negotiations and environmental awareness activities. Children at Wee Play Preschool are supported by experienced teachers including collaboration with special education consultants, language specialists, occupational therapists and physical therapists. We embrace a philosophy of celebrating children with diverse backgrounds and learning styles. Our ultimate goal is to provide a fun and meaningful early education experience for children within a safe and inclusive environment where all children can be successful.
